Explore Atacama Desert – Tierra Atacama

tierraatacama

THE SPIRIT OF THE ALTIPLANO

San Pedro de Atacama is a picturesque oasis village in the high plains of northern Chile, in the middle of the Atacama desert. History here starts with civilizations from 10,000 years ago, and its people, traditions and culture descend from the Incas, Aymarás and Atacameños. The village has an excellent museum, atmospheric restaurants, a historic church and a wide variety of crafts sold by local people in the town market. Outlying streets are shaded with twisted desert trees and lined with lovely, hand-hewn fences. The surrounding area is a vast natural playground, that **will surprise, awe and inspire you.**

PHILOSOPHY

Active adventures, deep relaxation and friends

Tierra Atacama is an adventure spa, a place where guests **combine active enjoyment of the desert with profound restfulness**. We'll show you the great beauty and life of the Altiplano via guided hikes, bikes, horserides and in vans. The feeling of well-being is the reward... to enjoy washing the dirt off after a good hike, while thinking that the massage, pool, yoga or cocktail will be the most delicious end of a very good day.

Your stay will be as active or as peaceful as you wish.

HOTEL FACILITIES

Beautiful spaces and inspiring views

Tierra Atacama's architecture, interiors and gardens were designed by some of Chile's leading creative talent. Our objectives were to be authentic, to use local materials and artisans where possible, and to create a space that would excite, relax and inspire our guests.

The views of the Licancabur volcano move the soul while making a wonderful backdrop for the casual elegance of the hotel. Guests enjoy cocktails around the terrace campfire as the sun goes down over the volcano, recounting their day's adventures.

Our gardens emphasise agriculture with seasonal plantings such as corn, quinoa, figs and other fruits, vegetables and herbs which we use in our restaurant. Raised wooden walkways allow self guided tours of the grounds and the discovery of an ancient and mysterious algarrobo tree. Shady platforms make good sites for meditation and yoga.

FOOD & WINE

Fresh and local seasonal produce

At Tierra Atacama our chef creates fine meals using healthy fresh ingredients of the area, such as quinoa, Andean potatoes and fresh herbs. We source the best of Chilean beef, lamb, seafood, fruits and vegetables and appreciate our good fortune to be part of this bountiful country with its long Pacific coast and excellent climatic zones for agriculture.

Tierra's wine list is extensive, and carefully selected by our resident wine maker. You'll have the opportunity to sample both little known vintages as well as the better known labels. The bar menu includes Chilean standards like the pisco sour plus fun twists like pisco sours with chili, ginger or mango.

Active days full of discovery

EXCURSIONS

Explore nature / Discover yourself / Know your world

Our adventure-spa philosophy means that at Tierra Atacama you can discover the scenery, wildlife, flora and archaeology of the altiplano in the way that best suits you. Our guides meet daily with guests to help select the right activity for each individual's interests. We offer a daily selection available for all levels of fitness, including hikes, walks, bicycle rides, horserides, volcano climbs, four-wheeling and star gazing.

From adrenaline filled rides down giant sand dunes on a mountain bike, to peaceful sun filled hikes in grassy canyons Tierra Atacama's adventures let you know your world.

THE UMA SPA

at Tierra Atacama
restore | relax | rejuvenate

After an active day in the Altiplano it will feel good to restore and relax your body. We encourage you to **indulge in pleasure** at our Uma Spa. Uma is the Aymara word for water, a source of life, of revitalization. Enjoy the steam bath to warm the muscles and wipe away stress. Follow one of our specialized spa circuits which use the playful bubbles and jets of the heated pool, the differing water temperatures and the meditative **relaxation areas to restore and revive.**

Our massages, facials and body treatments are **quiet and inviting.** Natural desert elements are used for Swedish massages, hot stone, aromatherapy, body wraps and scrubs. Our facials and manicures are the finishing details you need to feel luxuriously pampered.

TIERRA ATACAMA

Respect for the planet/ Love of life

A Tierra Atacama value is the **protection of our environment**. We want to provide the best possible adventure-spa services with minimal disruption to the atmosphere, land, wildlife, history or local culture.

Water is a precious resource in the desert, and we have our own reverse osmosis plant which purifies the water drawn from our own deep well. We treat and reuse our waste water to irrigate our gardens and ask for your cooperation to use water carefully.

Our landscaping **preserves the local native flora and encourages species that prevail** in the desert climate, not only for their hardiness but also so we can benefit from our land, such as the alfalfa that we feed to livestock or the fruits and grains used in our restaurant. Our organic waste is turned into compost to give back to the land what we take out.

We work closely with the local Indian communities to protect their heritage. We employ local people where possible and sponsor local students to enable them to study and stay in the area.
